

As the program enters its final segment, we are pleased to see that you have provided a number of references to other programs and resources.

technology, including a new, low-costing, high-resolution, color video camera (1.2-megapixel sensor) and a new, more flexible, more sensitive, more rugged, more portable (1.5 kg) sensor unit. The new camera is designed to be used in a variety of environments, including indoor and outdoor, and is capable of operating in a wide range of temperatures (from -40°C to +55°C).

London: Springer, 1994. 200 pp. £19.95. The paperback.
